

**PAOLA
LENTI**

POD SERIES

Press release

Pod: Embracing Unconventional Comfort

Indulge in comfort reminiscent of cozy wool sweaters with **Paola Lenti's latest seating series, Pod**. Featuring generous cushions and knitted upholstery, Pod is designed to redefine relaxation and offer a unique blend of comfort and style.

Originally conceived for **outdoor settings**, Pod seamlessly transitions **indoors**. The series includes a **lounge chair** and a versatile **platform**, easily transformed into a spacious sofa by adding backrests and cushions.

Breaking away from unnecessary embellishments, Pod's design embodies an **open and curious approach**, challenging conventions and staying true to Paola Lenti's inspirational roots. The lounge chair, with its low seat, adds an informal touch, epitomizing the brand's commitment to **"laid-back" comfort**.

The Pod lounge chair boasts upholstery in **Costa Inglese**, a knitted fabric woven in two colours to accentuate its distinctive "ribbed" pattern. The platform is available in **Maglia Rasata** or **Tao chenille**, exclusive outdoor fabrics by Paola Lenti. Crafted from Rope, a recyclable technical yarn, these fabrics offer resilience against water, UV rays, mold, and bacteria.

In line with Paola Lenti's commitment to sustainability, Pod's padding features **Aerelle® blue** polyester fiber, **derived from disposable plastic** collected before it reaches water bodies. This material undergoes a certified industrial process, marked with the EU Ecolabel. Additionally, the process is verified for traceability according to the Global Recycled Standard (GRS).

POD

design CRS

Lounge chair consisting of a seat and back cushion upholstered in knitted fabric. Internal structure in varnished stainless steel. Padding in recyclable expanded polyethylene mixed with Aerelle® blue polyester fiber. Fixed foam covering in waterproofed polyester; upholstery cover in two-colour Costa Inglese knit fabric, a new Paola Lenti exclusive for outdoor use. The Pod lounge chair is provided with four plastic feet.

POD

design CRS

Platform consisting of a single large seat cushion upholstered with fabric. Base and feet in stainless steel matt-varnished in grafite colour, provided with adjustable plastic spacers. Padding in recyclable expanded polyethylene mixed with Aerelle® blue polyester fiber. Fixed foam covering in waterproofed polyester. The padding is shaped so to hide the steel base while partially exposing the feet. Removable upholstery cover in Maglia Rasata or Tao chenille, new exclusive Paola Lenti fabrics for outdoor use.

Founded in 1994, Paola Lenti is renowned worldwide for the innovative twist it has given to design products and for its unmistakable interpretation of colour. In almost thirty years of activity, the company has created a collection of exclusive fabrics and technical materials, eco-friendly and available in hundreds of hues. Paola Lenti indoor and outdoor collections and complements for the architecture are displayed in the most important international showrooms.
