MONACO YACHT SHOW 2024

Press release

Elegance, Exclusivity, and High-Tech Performance

Paola Lenti Defines the New Frontiers of Luxury Yachting Furniture at the Monaco Yacht Show

Once again, Paola Lenti is a partner of the **Monaco Yacht Show**, the most anticipated international event dedicated to the marine world, taking place from **September 25th to 28th, 2024**, at **Port Hercules in Monte Carlo**.

For nearly fifteen years, the Italian company has been entrusted with designing and enhancing the most exclusive areas of the show, becoming a key reference in the luxury outdoor furniture market, particularly in the yachting sector.

In the **Upper Deck Lounge**, the most frequented space for gathering and relaxation, the area is designed to offer yacht owners and enthusiasts a refined and elegant environment where they can meet, converse, and work. This ambiance is created with a carefully selected range of furniture, finishes, and colors.

The prevailing color theme is that of the sky and sea, presented in **a multitude of new coordinated shades**. In the various compositions, **some new products** immediately catch the eye, such as the Helico low tables, Santorini and Kyo sofas, and the Baleari lounge chairs, all featuring new and original weaves.

The three-dimensional and deliberately irregular textures of the Moss bouclé surface, the shades of blue in Rope T Mélange, and the unique and striking patterns of Roseto, always inspired by nature, represent different outcomes of a **global textile project** aimed at bringing residential-level comfort to outdoor products.

Available in an almost endless color palette, **the new fabrics guarantee superior durability and easy maintenance** - both essential for use in challenging environments like the marine and yachting sectors.

In addition to making the **Upper Deck Lounge**, **VIP Entrances**, and the Terraces overlooking the **Parvis Piscine** cozy and welcoming with its products, Paola Lenti is also present in its exhibition **area, PP28**, where Elianto takes center stage. This circular platform with its minimalist design, conceived by Espen Øino, is displayed here, surrounded by Otto poufs and Giro side tables set on Ellissi rugs.

The collections selected for the Monaco Yacht Show are **exclusively distributed in the Principality by Sabrina Monte-Carlo** and demonstrate the company's commitment to **experimenting with technical materials** and its unmistakable ability to offer yacht owners and designers **extraordinary customization options**.

Paola Lenti guarantees, in fact, that on board yachts with the most technologically advanced designs, its products combine exclusivity and brand recognition - qualities that are essential in the luxury market today. This reaffirms the company's position among the most forward-thinking and internationally admired Italian brands in the high-end outdoor furniture sector.

The success of Paola Lenti in the yachting world, that in the past twenty years has seen a significant increase in collaborations with **major international and Northern European shipyards**, is primarily due to the exceptional quality of its offering, both aesthetically and technically, achieved through constant investment in research and development.

Santorini

design Francesco Rota

Series composed of two- or three-seater shaped modular elements, shaped platform and pouf. The elements, combined with the pouf, can be used to create articulated compositions with different angle amplitude and easily modifiable. Structure and sled bases in matt-varnished stainless steel in avorio or grafite colour. Padding in stress-resistant and differentiated expanded polyurethane and a new recycled and biodegradable polyester fibre. Fixed foam covering in waterproofed polyester. Removable upholstery cover, available in the outdoor fabrics in the collection. The modular elements can be completed with back and armrests padded with the same materials used for the seating pieces and upholstered with the same fabrics, and with side tables with round or rectangular top is in heat-treated Aurea Optima ash multilayer wood.

Kyo

design Francesco Rota

Series composed of an armchair, two- and three-seater sofas. Structure in dark brown dyed sassafras heartwood, seat area in stainless steel provided with elastic belts. The seat, back and armrest cushions are joined together and removable. Padding in Aerelle® blue polyester fibre with stress resistant expanded polyurethane and fixed foam covering in waterproofed polyester. Removable upholstery cover in a selection of outdoor fabrics in the collection.

Elianto

design Espen Øino

Round platform. Structure consisting of tubular and mesh in matt-varnished stainless steel, adjustable plastic feet. Padding – divided into three sections and shaped so as to hide the steel base leaving only part of the feet visible – in Aerelle® blue polyester fibre with insert in stress resistant expanded polyurethane, fixed foam covering in waterproofed polyester. The removable upholstery cover is available in the outdoor fabrics in the collection.

The platform is provided of two swivel backrests and a side table hooked to the structure. The support of the backrests and the side table is made of gloss-varnished stainless steel. Padding in Aerelle® blue polyester fibre with insert in stress resistant expanded polyurethane, fixed foam covering in waterproofed polyester. The removable upholstery cover is available in the outdoor fabrics in the collection. The side table can be removed and used as a tray. Top in aluminium honeycomb and edge in heartwood; both are gloss-varnished in a colour matching the support.

Baleari

design Lina Obregón

Series composed by chair with armrests, lounge chair and chaise longue. Structure made of aluminium, matt-varnished in avorio or grafite colour or gloss-varnished, plastic spacers. Fixed upholstery hand woven with two-colour elastic belts in Rope yarn woven so as to decorate the surface.

Capri

design Espen Øino

Series composed of folding chair with armrests and deckchair. Structure made of extruded aluminium, joints in die-cast aluminium, chair's crossbar and back-support of the deckchair in stainless steel. Details and spacers in moulded plastic. The structure is gloss-varnished, the removable upholstery is available in the outdoor fabrics in the collection.

Sabrina

design Espen Øino

Dining armchair. Legs in Aurea Optima oak heartwood treated to be water- and oil-repellent with a water-based finish or gloss-varnished. Plastic spacers. Padding in Aerelle® blue polyester fibre with stress resistant expanded polyurethane insert, foam covering in waterproofed polyester. The fixed upholstery cover is available in a selection of outdoor fabrics in the collection.

Helico

design Nicolò Morales

Side tables with glass top. Base composed of extruded majolica elements, crafted and decorated by hand in exclusive colours by Nicolò Morales, positioned according to a pre-established scheme. The elements, with different shapes and dimensions, have a core in matt-varnished stainless steel. The core is glued to the top, the plastic spacers hold the majolica elements in place. The round top is transparent and made of glass fusion.

Isole

design Marella Ferrera

Series of side tables with shaped top. Base in matt-varnished stainless steel in grigio lava colour. Tops in Caravaggio Fossil Brown marble, Sinai stone and in the new Sciara version, natural lava decorated with glass.

Ellissi

design CRS

Irregularly shaped rug ideal to give a touch of originality to indoor and outdoor spaces. It is composed of more round and oval decorative elements, joined together by hand to create a geometrical pattern. Ellissi is made of cords in Rope yarn, which is long lasting, resistant to water, UV rays, mould, and withstanding the elements, hence ideal for terraces and yachts. Ellissi is available in the wide range of Paola Lenti's exclusive colours: a decorative and versatile element capable of adapting to different styles.

Founded in 1994, Paola Lenti is renowned worldwide for the innovative twist it has given to design products and for its unmistakable interpretation of colour. In almost thirty years of activity, the company has created a collection of exclusive fabrics and technical materials, eco-friendly and available in hundreds of hues. Paola Lenti indoor and outdoor collections and complements for the architecture are displayed in the most important international showrooms
